

Predstavljamo SKF SEAL JET DD servis

Sada, čak i ako nemamo brtve koje trebate na našem skladištu, možemo ih napraviti sa našim novim SKF SEAL JET sistemom.

Ovaj novi CNC obradni sistem nam omogućava izradu brtvi do 200mm promjera sa širokim izborom oblika brtvi i polimernih materijala koji sigurno odgovaraju zahtjevima Vaše aplikacije.

Sve brtve koje ne možemo izraditi na licu mjesta, možemo u kratkom roku dobiti iz SKF tvornice.

Prednosti za Vas:

- Standardna brtva u nestandardnim dimenzijama
- Bolja dostupnost i smanjeno vrijeme isporuke
- Nema potrebe za držanjem zaliha
- Vaš lokalni izvor opsežnih SKF rješenja za brtvljenje

Zatražite više detalja o našem novom SKF SEAL JET DD servisu i rješenjima za brtvljenje već danas!
